Tante soluzioni salvaspazio per organizzare al meglio la lavanderia domestica

A host of space-saving ideas for organising a home laundry

Predisporre un ambiente dedicato alla lavanderia, che si tratti di un ripostiglio, di un corridoio o di un antibagno, significa organizzare lo spazio utile attraverso elementi contenitori nei quali riordinare tutto il necessario.

Equipping a room as a laundry, be it a box room, corridor or bathroom vestibule, means organising space with the use of container units to hold everything needed.

Créer un espace dédié à la buanderie, qu'il s'agisse d'un placard, d'un couloir ou d'un dressing, cela signifie organiser l'espace utile à travers des éléments de rangement dans lesquels ranger tout le nécessaire.

Die Einrichtung eines Raums als Waschküche, sei es ein Abstellraum, ein Flur oder ein Vorraum eines Badzimmers, bedeutet den Nutzraum durch Stauraumelemente so zu organisieren, dass alles Notwendige darin untergebracht werden kann.

LE FINITURE FINISHES

Per le strutture a giorno abbiamo selezionato i materiali più adatti ad un ambiente umido. Le finiture di superficie riproducono un gran numero di materiali dal legno alla pietra.

For open units we have selected materials that are not affected by a damp environment.

The surface finishes reproduce a host of materials, from wood to stone.

Pour les structures ouvertes, nous avons sélectionné les matériaux les plus adaptés à un environnement humide. Les finitions de surface reproduisent un grand nombre de matériaux, allant du bois à la pierre.

Für die offenen Strukturen haben wir Materialien ausgewählt, die sich am besten für einen Feuchtraum eignen. Die Oberflächenausführungen sind einer Vielzahl von Materialien nachempfunden, von Holz bis Stein.
